

**PMA
TOOLS**

AUTOMOTIVE GLASS ACCESSORIES

CATA LOGUE

The images, technical information, data and descriptions in this edition are up to date at publishing. In the course of constant development and improvement the PMA/TOOLS AG can make changes to the technical data, facilities and maintenance instructions at any time.

The reprinting, storage in a data processing system or transfer of this publication by electronic, mechanical, photographic or other methods or recording of the translation of this publication - including extracts - requires the prior written authorisation of PMA/TOOLS AG. E&OE.

Our Vision

A global partner for comprehensive ARG solutions that sets new quality and service standards.

Dynamic. Innovative energy with tradition.

__Standards are changing constantly; we recognized this a long time ago – and have therefore made the enjoyment in change our guiding principle.

__When PMA was founded in 1993, and Tools in 1994, glass for automotive use was relatively simple. Since then things have changed completely. Technologies have developed at an unprecedented pace over the past two decades, and we have also grown to meet the increasingly complex demands. The result is intelligent and forward-looking solutions that represent true value for our customers.

__The two companies joined forces in 1998 and the head office of PMA/TOOLS GmbH has been situated in Willich. In 2000 the company changed status to become a corporation. With increased demand the corporation grew and in 2004 we

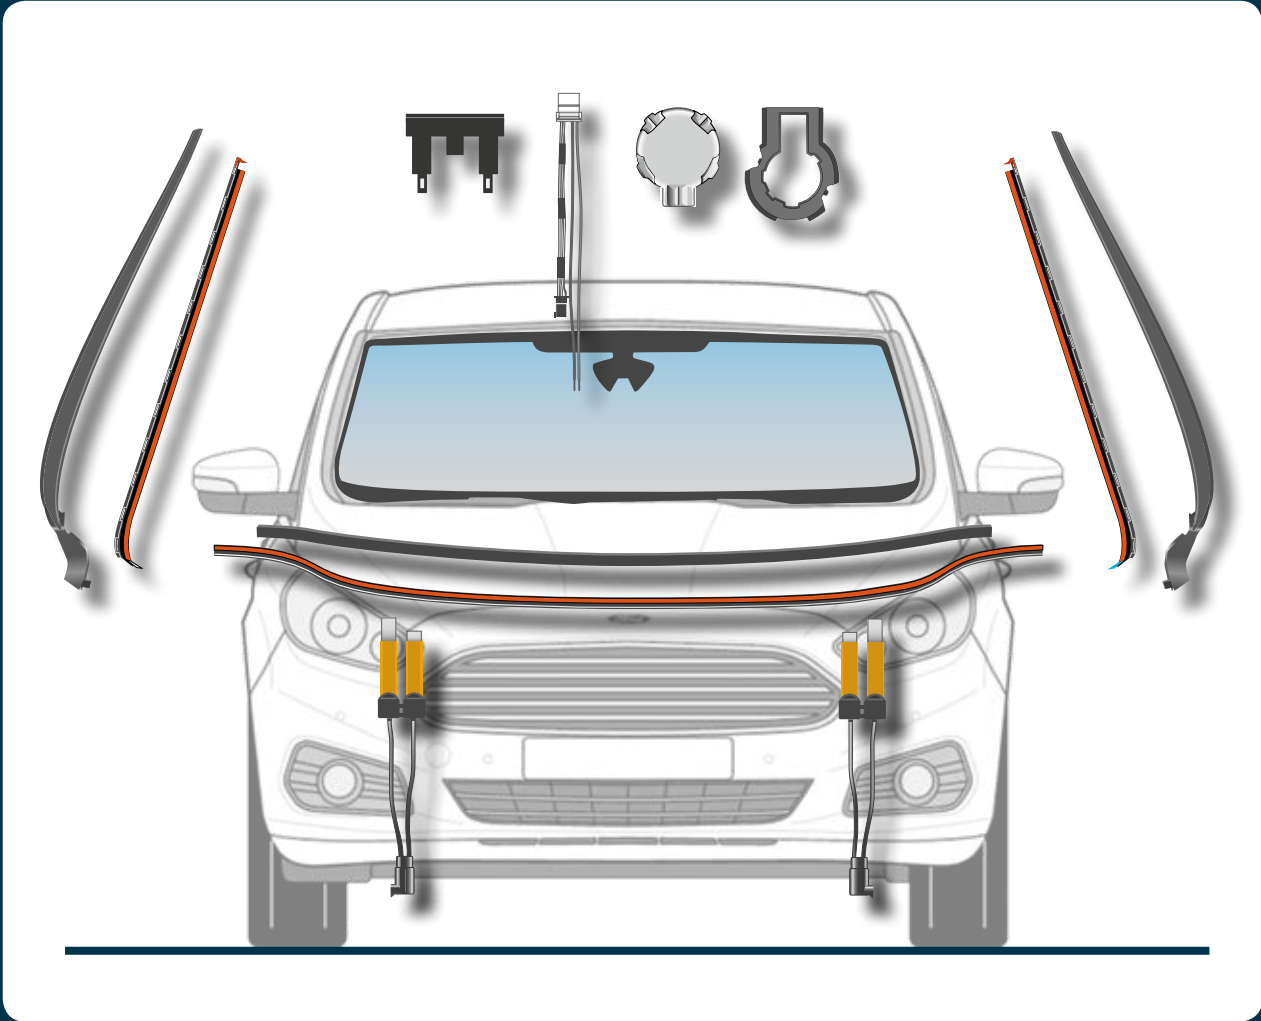

opened a branch in France; five years later another was opened in Spain. We have since established ourselves in the USA - as a specialized direct supplier.

__PMA/TOOLS now offers a sophisticated array of automotive glass accessories. „Made-in-Germany“ is always front and center, valued by customers in over 100 countries worldwide. As a leading innovator in the field we strive for the highest degree of quality with the most modern materials and production processes, thus setting new standards. Specialized services and highly efficient logistics allow us to react expediently to individual customer requirements.

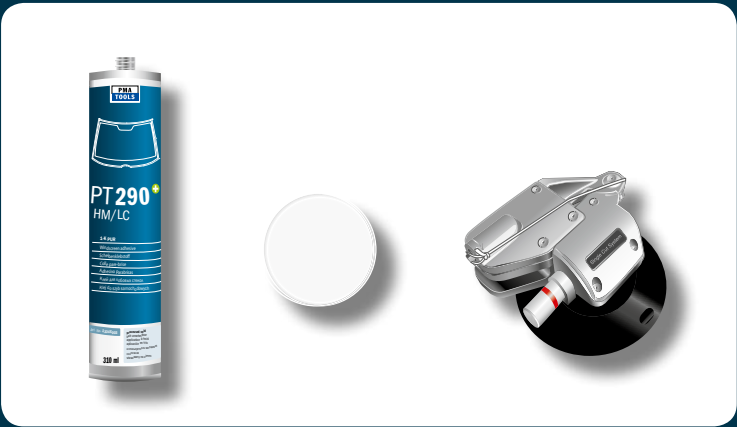

__That is not enough for us though. We are constantly working on not only meeting but surpassing customer expectations, with a keen interest in the latest developments.

Diversity. **Products that meet every need.**

Trims, mouldings and attachments from a single source!

Equivalent to OE No.: 50516496

Article number	OE	Content	Item/unit
015858132	—	1	piece

ALFA ROMEO GTV, 95-05, WS-Cover moulding

Eurocode: 2032ASMC

Equivalent to OE No.: 60606918

Article number	OE	Content	Item/unit
012238121	✓	1	piece

ALFA ROMEO Spider II, 95-05, WS-Cover moulding

Eurocode: 2032ASMC

Equivalent to OE No.: 60606918

Article number	OE	Content	Item/unit
012228121	✓	1	piece

AUDI 100/A6, 91-97, WS-Cover moulding

Eurocode: 8540ASMS

Equivalent to OE No.: 4A0845121C

Article number	OE	Content	Item/unit
023238132	✓	1	piece

AUDI 80 II Cpe., 80-88, WS-Rubber solid w/o insert gap

Eurocode: 8528ASRC

Equivalent to OE No.: 855845121B

Article number	OE	Content	Item/unit
024238111	—	1	piece

AUDI 80 III/IV Sedan, 78-86, WS-Rubber solid w/o insert gap

Eurocode: 8526ASRS

Equivalent to OE No.: 811845121C

Article number	OE	Content	Item/unit
024218111	—	1	piece

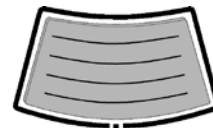

AUDI 80 V Sedan 4dr, 87-94, BL-Cover moulding

Eurocode: 8534BSMS

Equivalent to OE No.: 8A5845521B

Article number	OE	Content	Item/unit
024138232	—	1	piece

AUDI 80 V Sedan/Estate, 87-94, WS-Cover moulding incl. sleeve, 2 pieces

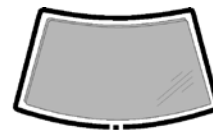

Eurocode: 8534AKMS

Components:

1 x WS-Cover trim, equivalent to OE No.: 893845121G

1 x Sleeve, equivalent to OE No.: 893853367D

Article number	OE	Content	Item/unit
024158131	—	1	piece

AUDI 80 V Sedan/Estate, 87-94, WS-Cover moulding incl. sleeve, 6 pieces

Eurocode: 8534AR

Components:

1 x WS-Cover trim on roll (length 21 m), equivalent to OE No.: 893845121G

5 x Sleeve, equivalent to OE No.: 893853367D

Note: The profile length on one roll is sufficient to fit 5 windscreens.

Article number	OE	Content	Item/unit
024158151	—	1	piece

AUDI A3, 96-03, WS-Cover trim soft, top

Eurocode: 8554ASMHT

Equivalent to OE No.: 8L0845131C

Note: Advantage of the soft version: Fits to glasses of different thicknesses, avoids damages during transportation and fitting.

Article number	OE	Content	Item/unit
024558131	—	1	piece

AUDI A3, 96-03, WS-Waterpanel moulding

Eurocode: 8554ASMHB

Equivalent to OE No.: 8L0853306

Article number	OE	Content	Item/unit
024558133	—	1	piece

TRIMS AND MOULDINGS

1

AUDI

AUDI A4, 94-00, WS-Cover trim soft, top

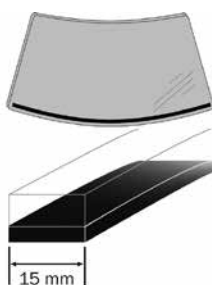

Eurocode: 8547ASMST

Equivalent to OE No.: 8D0845131C

Note: Advantage of the soft version: Fits to glasses of different thicknesses, avoids damages during transportation and fitting.

VW Golf II/Jetta, 83-91, WS-Rubber solid with insert gap

Eurocode: 8533ASRH

Equivalent to OE No.: 191845121A

Article number	OE	Content	Item/unit
524168111	✓	1	piece

VW Golf III, 91-98, WS-Trim, top

Eurocode: 8541ASMHT

Equivalent to OE No.: 1H0853705B

Article number	OE	Content	Item/unit
524318131	✓	1	piece

VW LT 28-35 I, 75-96, WS-Rubber solid w/o insert gap

Eurocode: 8522ASRV

Equivalent to OE No.: 281845121

Article number	OE	Content	Item/unit
912118111	—	1	piece

VW LT 28-35 II High, 96-06, WS-Moulding coated

Eurocode: 8552ASMV

Equivalent to OE No.: 2D1845121

Material: anti-friction coated

Note: The rubber coating guarantees better fitting of the windscreen.

Article number	OE	Content	Item/unit
912168121	✓	1	piece

TRIMS AND MOULDINGS

1

VW

VW LT 28-35 II High, 96-06, WS-Moulding coated

Eurocode: 8552ASMV

Equivalent to OE No.: 2D1845121

Material: anti-friction coated

Note: The rubber coating guarantees better fitting of the windscreen.

Article number	OE	Content	Item/unit
912168122	–	1	piece

VW LT 28-35 II Low, 96-06, WS-Moulding coated

Eurocode: 8553ASMV

Equivalent to OE No.: 2D3845121

Material: anti-friction coated

Note: The rubber coating guarantees better fitting of the windscreen.

Article number	OE	Content	Item/unit
912148121	✓	1	piece

VW LT 28-35 II Low, 96-06, WS-Moulding coated

Eurocode: 8553ASMV

Equivalent to OE No.: 2D3845121

Material: anti-friction coated

Note: The rubber coating guarantees better fitting of the windscreen.

Article number	OE	Content	Item/unit
912148122	–	1	piece

VW Passat B3/B4, 88-96, WS-Moulding

Eurocode: 8535ASMH

Equivalent to OE No.: 357853299

Article number	OE	Content	Item/unit
523238131	✓	1	piece

VW Polo II/Derby II, 81-94, WS-Rubber solid w/o insert gap

Eurocode: 8530ASRH

Equivalent to OE No.: 867845121

Article number	OE	Content	Item/unit
526158111	–	1	piece

VW Scirocco II, 81-92, WS-Rubber solid w/o insert gap

Eurocode: 8531ASRC

Equivalent to OE No.: 533845121

Article number	OE	Content	Item/unit
525128111	–	1	piece

VW Scirocco III, 08-, WS-Profile self-adhesive, top

Eurocode: 8597ASMCT

Equivalent to OE No.: 1K8845132

Characteristic: self-adhesive

Article number	OE	Content	Item/unit
525148131	✓	1	piece

VW Sharan, 03-10, WS-Waterpanel moulding set, 3 pieces

Eurocode: 8548AKMVB

Components:

1 x WS-Waterpanel moulding left (length 90 mm)

1 x WS-Waterpanel moulding middle (length 851 mm)

1 x WS-Waterpanel moulding right (length 90 mm)

Article number	OE	Content	Item/unit
520018132	✓	1	set

VW Sharan, 95-03, WS-Trim, top

Eurocode: 8548ASMVT

Equivalent to OE No.: 7M0853306B

Article number	OE	Content	Item/unit
520018131	—	1	piece

VW Taro Pickup/Toyota Hilux, 89-98, WS-Rubber solid w/o insert gap

Eurocode: 8536ASRP

Equivalent to OE No.: J5612189120

Article number	OE	Content	Item/unit
912818112	—	1	piece

VW Transporter T2, 67-79, WS-Rubber solid w/o insert gap

Eurocode: 8510ASRV

Equivalent to OE No.: 211845121D

Article number	OE	Content	Item/unit
911118111	—	1	piece

VW Transporter T3, 79-92, BL-Rubber solid w/o insert gap, tailgate

Eurocode: 8527BSRV

Equivalent to OE No.: 255845521

Article number	OE	Content	Item/unit
911238211	✓	1	piece

VW Transporter T3, 81-90, WS-Rubber solid w/o insert gap

Eurocode: 8527ASRV

Equivalent to OE No.: 251845121

Article number	OE	Content	Item/unit
911138111	—	1	piece

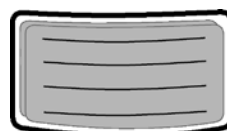

VW Transporter T4, 90-03, BL-Moulding, tailgate

Eurocode: 8537BSMV

Equivalent to OE No.: 701845121A

Article number	OE	Content	Item/unit
911218221	—	1	piece

VW Transporter T4, 90-03, SL-Sealing gasket

Eurocode: 8537LSMVRQ

Equivalent to OE No.: 723845121

Article number	OE	Content	Item/unit
911218721	✓	1	piece

VW Transporter T4, 91-04, WS-Moulding

Eurocode: 8537ASMV

Equivalent to OE No.: 701845121J

Article number	OE	Content	Item/unit
911218121	✓	1	piece

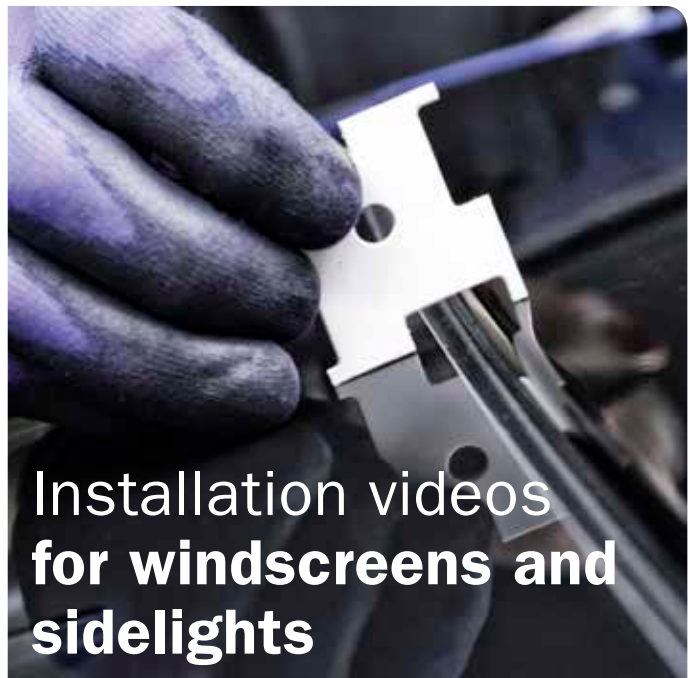

Unique and precise. Your plus in terms of safety.

The removal and installation of modern automotive glass with integrated safety systems poses new challenges to the professional fitter.

In nearly 700 videos based on OEM data we show each vehicle's particular distinctive features and offer the user valuable advice and information about windscreen and sidelight replacement – all summed up in just a few minutes!!

Installation videos for windscreens and sidelights

- approx. 700 installation videos
on OE data basis
- for more than **30 manufacturers**
- comprising over **280 vehicle models**
- including all OE numbers
for ease of order of replacement parts
- videos online, on demand, for your
PC, Mac, Smartphone, Tablet or Kindle

Flexible. **Systems that raise the standard.**

__Universally applicable: our cover profiles, underglass profiles, rubber profiles, weather strip profiles. Select the optimal solution for your needs.

UNIVIVE RSAL PRO FILES

Cover profiles with butyl	158
Cover profiles without butyl	163
Filler profiles	166
Foam rubbers	166

UNDERGLASS PROFILES SELF-ADHESIVE

Underglass distance profile self-adhesive, 5x3,5 mm, 20 m

This underglass profile can be used universally and is attached to the silkprint of windcreens, side and backlights. It ensures the correct spacing between windscreen and bodywork.

Article number	Content	Item/unit
5057-20	20	metres

Underglass profile self-adhesive with cover lip, 7 mm, 30 m

Universal foam profile soft and flexible, for quick and easy positioning. Especially used for windcreens with high curvatures.

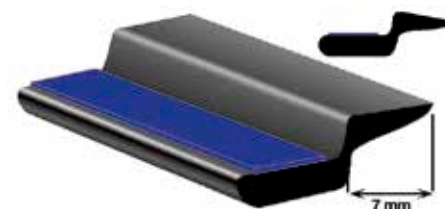

Article number	Content	Item/unit
5051-30	30	metres

SensorTack® makes it easy: with App and Microsite.

Finding the correct solution: Use the SensorTack® Microsite and App and learn in seconds which sensor repair system is suited for your particular application. In addition, much more helpful SensorTack® information is available: download the App to your smartphone and try it!

- So simple: direct sensor assignment per vehicle model or Eurocode
- So up-to-date: always the latest standard
- So quick: repair solution in seconds

The image shows a laptop and a smartphone. The laptop screen displays the SensorTack microsite, which features a blue background with a hand being scanned by a sensor. The text on the screen reads: "Reliable and individual. It can only be a SensorTack® repair. The no. 1 for sensor repair." Below this, it says "Fivefold reliability: the original SensorTack® repair system". The smartphone displays the SensorTack app interface, which includes a search bar for "Vehicle model:" with "BMW 3 Series GT F34 (2469) 13-" entered, and a "Repair with:" section with "SensorTack® 1" selected. A button at the bottom of the app says "I want to check another car".

More information about SensorTack®
available at www.sensortack.com
– where the SensorTack® App can be downloaded as well.

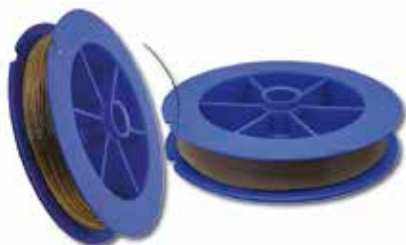

Innovative. **Solutions that set new standards.**

__Perfectly equipped: Aside from chemical products (such as glass treatment) we offer customers the appropriate assembly and installation tools, cutting tools, glass repair systems as well as polishing and cutting machines. You can count on safety, reliability and quality.

Wire and accessories

Flexi-Cut Gold wire, braided, 0,8 mm, 44 m on plastic dispenser

Comprising three inter-woven brass coated steel wires. The improved cutting properties of this strong and flexible wire are an advantage when used on wide and hard PU beads. The solid rubber band prevents the wire from slipping unintentionally.

Flexi-Cut Square wire, 0,6 mm, 50 m

The disadvantage of most square cutting wire is the lack of flexibility. Flexi-Cut however, has a special alloying that makes it very bendable, while still maintaining its high cutting strength. Try the cutting wire in our handy tangle-free plastic dispenser and we are confident that you won't use any other wire!

FEIN cut-out technique

FEIN Cutter FSC 1.6

At a glance:

- removal of bonded glass from the outside is possible by one person alone
- time expenditure for a car windscreen usually under 2 minutes
- high safety level as regards glass and paint damage
- extreme efficiency owing to very long tool life of the original FEIN cutter blades
- suitable for almost all car makes

Components: 1 x FEIN cutter FSC 1.6, 1 x key, 1 x whetstone, 1 x clamp screw
 RPM: 11.000 - 18.500 rpm
 Power consumption: 400 Watt
 Delivery: plastic tool box

Cold cutting knife fully adjustable

The advantages of the lever-operated cold cut-out knife are:

The quick release handle allows blades to be changed very quickly and safely.

As more and more vehicles have differing heights of pinchweld on the A-pillar section, the fitter can adjust the height of the blade whilst still cutting and thus avoid the back edge of the knife blade from touching or scratching the body/paintwork.

The ergonomic handle fits more comfortably into the hand, which is especially important when changing cutting direction or adjusting the blade height.

The lever-operated cold cut-out knife accepts all 19, 25 & 38 mm blades from our range.

PMA/TOOLS Professional PU scraper box with long shaft

The PU scraper box contains the specially designed PMA/TOOLS scraper with ergonomic handle and longer shaft as well as 10 chisel blades, each of three different widths. The long shaft gives better control when working on tight curves in vehicle bodywork. The new blade attachment in the shaft fixes the chisel blade centrally and prevents twisting or breakage of the blade.

Components:

- 1 x PU scraper with long shaft,
- 10 x chisel blades 13 mm,
- 10 x chisel blades 16 mm,
- 10 x chisel blades 20 mm

PMA/TOOLS Professional PU scraper box with short shaft

The PU scraper box contains the specially designed PMA/TOOLS scraper with ergonomic handle and short shaft as well as 10 chisel blades, each of three different widths. The blades are easy and quick to change thanks to the scrapers thread connection. The ergonomic design and length of the handle improve user-friendliness and increases safety when cutting off beading rests.

Components:

- 1 x PU scraper with short shaft,
- 10 x chisel blades 13 mm,
- 10 x chisel blades 16 mm,
- 10 x chisel blades 20 mm

FIXING AND BONDING

Adhesive tape, clear, 38 mm, 33 m roll

The Tip-Tape adhesive tape has been specially developed for auto glass fitting or storage with perforations every 15 cm for easy use. The advantage over other fabric or crepe adhesive tapes is that it can be removed without leaving any residue on not previously damaged paints (no traces of adhesive on the glass or enamel).

Application examples:

- for holding trims in place
- for securing windscreens to prevent slippage
- as masking on emergency glass replacement
- for masking glass panes in storage, so as to avoid scratches

PT Glass/metal adhesive kit, 2 pieces

The PT glass/metal bonding kit has been specially developed for gluing the rear-view mirror onto the windscreen.

The adhesive takes effect after approx. 20 seconds. The extreme strength of the adhesive is long-lasting and the physical and chemical properties remain steady at both low and high temperatures.

Application of activator:

Spray activator on to the area to be glued and wait until the solvent has dried.

Application of adhesive:

Apply a small amount of adhesive on to the middle of the metal mirror bracket/mirror boss. Press the mirror bracket onto the windscreen and move it slightly up and down to achieve equal dispersion of the adhesive. Then with the mirror bracket in the desired position, press firmly for approx. 1 minute. Be careful not to put too much pressure on the mirror assembly for at least 15 minutes at 23 °C to allow the glue to harden fully.

Components: 1 x adhesive 30 gr, 1 x activator 30 ml

Note: Affect of temperatures: To accelerate the bonding process during winter (very cold periods), we recommend to heat up the parts to be glued.

IMPORTANT: Take care to ensure that the parts to be glued are dry and free of grease and dirt.

Micro-Top High-quality micro-fibre cloth 400 x 400 mm, blue

Perfect cleaning cloth for use with Contact cleaning milk. Enables vehicle windscreens to be cleaned without chemical detergents and just with clean water. Reduces the use of glass detergents and guarantees best possible results. Also ideal for cleaning sensor surfaces before using Sensor-Tack® refill gel. Washable up to 95° C.

Article number	Content	Item/unit
13356010	1	piece

GLASS CLEANING AND SEALING

Ombrello Glass treatment, 8 ml in wing ampoule

Glass treatment in original equipment quality. Penetrates the glass top layer by chemical reaction and seals the surface in such a way that water drops and dirt are carried away by the airstream at speeds over 60 km per hour. Water rolls off immediately even in the worst weather. Used for conditions such as rain and snow. Binding effect by scattered light is avoided. Highly adhesive insect remains are removed easily by the windscreen wipers. The wiper blades last longer and wear on the screen surface is reduced. Frost and ice on the windscreen can be removed more easily.

Ombrello™ sealant only has to be renewed every 25.000 kilometres - depending on the frequency of wiper use.

Ombrello™ greatly improves visibility in bad weather. Used for glass only (not plastics)

TIP: Please refer to application guidelines

PMA/TOOLS Glass cleaner concentrate 1:80 (for 10 litres), 125 ml

Used to clean heavily soiled windscreens and mirrors.

- easily removes tough oil, grease and PU remnants
- is sufficient for 10 liters
- high-performance
- produces streak-free glass without any residues
- application up to 1:80
- good cleaning results also at very low temperatures
- skin-friendly, does not contain any toxic contents and is bio-degradable
- also suitable for sensitive surfaces, e. g. PVC and vehicle paint
- measuring scale on label allows exact mixing

Note: Simply pour the required amount of concentrate into a spray bottle and then fill with water.

INSTALLATION AND REMOVAL TOOLS

Single-Cut EVO Windscreen removal system with gearbox, multi-part in the carry-case

Single-Cut EVO is a glass removal tool that enables the operator to remove windshields, sidelights and backlights efficiently and safely.

This item comes complete in a purpose-built, compact plastic carrying case incl. 50 m Single-Cut fiber cord with high tensile strength.

Advantages:

- the use of fiber cord avoids any damage to vehicle body or paintwork
- fiber cord cannot spring back under tension - no risk of operator injury
- fiber cord does not heat up PU bead - no isocyanate fumes released
- sturdy die-cast aluminium body - 10 years warranty
- simple to use - no effort required as power driver does the work

Dimensions (LxWxH): 335 mm x 245 mm x 111 mm

Components:

- 1 x Single-Cut EVO with gearbox incl. 7 m cord,
- 1 x fiber cord 130 daN, ultra thin, 50 m on plastic dispenser,
- 1 x secondary suction pad,
- 1 x ball head magnet bit holder, 1/4 inch,
- 1 x wire guard template

Magnetic tray, coated

Universal double-chromed magnetic tray for the safe storage of nuts and screws during work.

The strong magnet on the underside ensures high grip on metallic surfaces and holds even small pieces safely in the tray. Due to the double-sided magnet the tray can also be affixed to any metallic surface.

With a diameter of approx. 150 mm there is enough space to collect all screws and bolts.

Indispensable for any workshop.

- plastic-coated magnet – prevents any paintwork damage, non slipping
- the double chromed and polished plate can be cleaned easily
- the powerful magnet will hold all contents securely

INSTALLATION AND REMOVAL TOOLS

Panel removal set, plastic, 5 pieces

The five handy tools allow you to remove virtually all exterior and interior trims, whether glued or clipped in place, without scratching the finish or damaging the trims. Can also be used to remove dash assemblies, switches and connectors. The special design allows access in areas which are difficult to reach. Special heavy-duty ABS construction gives strength and flexibility without brittleness. Polyamide (nylon) plus fiberglass makes the set virtually unbreakable.

The kit contains (one piece each):

- standard clip lifter
- double clip lifter
- clip lifter, small type
- trim remover
- fender remover, wide type

Special tools

Calibration gauge for windscreens

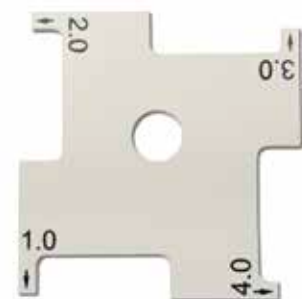

Some of the latest vehicle models have no external top trim fitted to the windscreen and incorrect positioning of the glass in the vehicle aperture may result in wind noise. Furthermore, vehicles equipped with head-up-display require the windscreen to be fitted precisely to the correct depth in the vehicle aperture for the image to appear clear and not distorted (e. g. double image etc.).

Therefore the windscreen has to be installed to a precise dimension if to avoid all these potential problems and this can be achieved by using our calibration gauge, so that you can determine the exact depth from glass to aperture as per the original manufacturer's specifications.

INSTALLATION AND REMOVAL TOOLS

PMA/TOOLS Body clearance feeler gauge

Many of the new models today require the replacement windscreen to be fitted precisely into the vehicle aperture, with the correct clearance between the roof-edge of the body and the A-pillar. The new fitted glass should be adjusted and installed in accordance with the manufacturer's specifications, or if these measurements are not available, then according to the original fitted windscreen.

The PMA/TOOLS body clearance feeler gauge is used to measure the clearance. This tool offers the possibility to position the new windscreen precisely using gauges ranging from 1 - 12 mm.

The advantages of following the correct body clearance measurements during the windscreen fitting are:

- wind noise as well as tension in the glass can be avoided
- add-on parts such as water panel mouldings or trims can be mounted precisely
- elimination of system error messages and no re-calibration of camera-based support systems, e. g. Lane Departure Warning (LDW) or Brake Assist Systems (BAS)

Nozzle protector for wash/wipe nozzle

Many rear wash/wipe assemblies on today's vehicles have an integrated washer system routed through the wiper spindle with the washer nozzle protruding beyond the end of the locking nut and wiper arm.

Wiper pullers are often required to lift the wiper arm from the spindle, but cannot be used when the rear washer nozzle protrudes further than the end of the spindle, as damage to the plastic washer will occur. However, thanks to our rear wash/wipe nozzle protector, you can safely and easily remove the rear wiper arm using a conventional wiper puller.

Simply undo the wiper spindle locking nut and screw the rear wash/wipe nozzle protector onto the wiper spindle. The plastic washer nozzle is now safely located inside the protector and a conventional wiper puller can now be used to lift off the wiper arm. (Note: Do not screw the protector fully down to the wiper casing, but leave a gap of approx. 1 mm so that the wiper arm can lift upwards when using the puller.)

TOOL BOXES

T 3000 Profi Line Tool box

This innovative universal kit comes fully equipped with all the tools necessary for the professional to complete fitting installations on all current vehicle models applications. With the Tool Kit T3000 *Profi Line* automotive glass replacement is made easy!

Clear advantage: With such a comprehensive kit, no more time is wasted looking for that specific tool, as all you need is in the one place. Through improved efficiency comes greater profitability.

Note: All tools from this kit are available from our current range and can be re-ordered separately if required.

Dimensions (LxWxH): 500 mm x 480 mm x 150 mm

Components:

- 1 x lift pin with plastic handle, short, 215 mm,
- 1 x plastic spatula Professional,
- 1 x clip remover, small, 245 mm,
- 1 x strip lifter Professional,
- 1 x windscreen wiper remover Easy Lift,
- 1 x replacement blades for glass scraper, 40 mm, 100 pieces in blister,
- 1 x glass scraper Professional,
- 1 x snapp-off blades, 18 mm, 10 pieces in the package,
- 1 x OLFA® Cutter knife XL-2, long, 18 mm,
- 1 x Quick-Fix Cold cutting knife,
- 1 x UltraWiz® Cold knife blade, 19 mm,
- 1 x UltraWiz® Cold knife blade, 25 mm,
- 1 x wire feeder, T-handle,
- 1 x wire counterholder,
- 1 x wire handles Professional, self-locking, blue, 1 pair,
- 1 x square wire, 0,6 mm, 50 m on plastic dispenser,
- 1 x gold wire, braided, 0,8 mm, 22,5 m roll,
- 1 x professional PU scraper with long shaft, blue/black,
- 2 x suction clamp for trims,
- 2 x PMA/TOOLS Double suction cup lifter, small, 80 kg,
- 1 x allen key size 4,
- 1 x combination wrench, 13 mm,
- 1 x long-nose pliers with extra long cutting edge,
- 1 x safety gloves, rubber-coated, cotton, size L,
- 1 x PMA/TOOLS Chisel blades Premium, 13 mm, 10 pieces in the package,
- 1 x PMA/TOOLS Chisel blades Premium, 16 mm, 10 pieces in the package,
- 1 x PMA/TOOLS Chisel blades Premium, 20 mm, 10 pieces in the package

T-MAX

Maximum space and equipment

This unique toolbox is the ‚mobile garage‘ for the automotive glass professional.

Including wheels for mobility and a stowable handle, it comprises three drawers (two with foam inserts) and a removable upper compartment tool box with ‚tool caddy‘. Thanks to the innovative opening mechanism the upper part can be moved for easy and full access of the lower compartment.

Based on our many years experience we have chosen tools according to their quality and ergonomic properties. The T-MAX toolbox contains over 85 different items, many of which are special tools designed to meet the demands of today’s automotive glass removal and installation.

PMA/TOOLS T-MAX toolbox - everything you need to do the job!

Dimensions (LxWxH): 560 mm x 420 mm x 1000 mm

Components:

- socket wrench set, 38 pieces,
- combination wrench set, 8 pieces,
- range of Torx Bits,
- special removal/installation tools,
- range of pincers,
- various screwdrivers,
- double suction cup lifters,
- wiper pullers,
- cutting wire,
- gloves,
- and lots more

T-MAX EVO

All essential tools at hand!

The optimal solution for the resourceful automotive glass fitter.

This toolbox with sturdy wheels and a stowable handle is the mobile garage for the automotive glass professional. Thanks to the innovative opening mechanism the upper part can be easily moved for full access to the lower compartments.

The T-MAX EVO consists of three compartments with foam inlays. The two lower parts can be opened quickly by unlocking the transport securing device and for safety, the upper compartment can be locked with two metal snap closings.

Based on our many years experience we have selected tools according to their quality and ergonomic properties. The result is a fully equipped toolbox for the automotive glass professional.

The T-MAX EVO toolbox contains 80 different items, many of which are special tools designed to meet the demands of today’s automotive glass removal and installation.

Dimensions (LxWxH): 530 mm x 330 mm x 730 mm

Double suction cup lifter, large, 80 kg

The new big rubber cups of this double suction lifter make working easy. The suction pads adhere to the glass surface on the slightest application of pressure. In conjunction with the moveable heads, best adhesion on tightly curved screens is ensured. The handle has a slit for the lashing strap.

Note: Made in Germany

Load capacity: 80 kg

Folding glass rack 5-slot, folding

You can store five windcreens in this innovative windscreen rack.

Advantages:

- very light, made of aluminium
- windcreens are safely fixed with rubber pads
- quick assembly
- to avoid scratches to the windcreens, tubes are covered with protective foam
- safe and easy transport of windcreens

Material: aluminium

Length: 500 mm

Width: 770 mm

Height: 550 mm

Folding glass rack 9-slot, folding

You can store nine windcreens in this innovative windscreen rack.

Advantages:

- very light, made of aluminium
- windcreens are safely fixed with rubber pads
- quick assembly
- to avoid scratches to the windcreens, tubes are covered with protective foam
- safe and easy transport of windcreens

Material: aluminium

Length: 820 mm

Width: 770 mm

Height: 550 mm

Profile guard for selfadh. buttom trims, 500 pieces

Self-adhesive bottom mouldings are attached on many windscreens and could be at risk of deformation and/or damage when transported or stored, due to the weight of the screen.

It is generally not possible to replace deformed or damaged profiles back onto the glass and in these cases a new self-adhesive profile will need to be re-attached.

However, the new PMA/TOOLS Profile Guard eliminates this risk and avoids all bottom profile claims. Profile guard is easy to apply, just slide the guard over the bottom profile and position to suit.

- avoids detachment/deformation of Audi bottom mouldings during storage and transport
- eliminates production re-work
- eliminates customer claims
- Profile Guard does not reduce standard crate capacity
- less expensive than using blue foam and shrink wrap
- easy to apply
- flexible positioning
- re-useable
- environmental friendly product

TRANSPORT AND STORAGE

Profile guard for selfadh. bottom trims, 500 pieces

Self-adhesive bottom mouldings are attached on all current windscreens (see vehicle listing overleaf) and could be at risk of deformation and/or damage when transported or stored, due to the weight of the screen.

It is generally not possible to replace deformed or damaged profiles back onto the glass and in these cases a new self-adhesive profile will need to be re-attached.

The PMA/TOOLS Profile Guard eliminates this risk and avoids all bottom profile claims. Profile guard is easy to apply - just slide the guard over the bottom profile and position to suit.

- avoids deformation of bottom mouldings during storage and transport
- eliminates production re-work
- eliminates customer claims
- Profile Guard does not reduce standard crate capacity
- less expensive than using blue foam and shrink wrap
- easy to apply
- flexible positioning
- re-useable
- environmental friendly product (recyclable)

Profixx Double suction cup lifter, adjustable, 80 kg

Double suction cup lifter with wide cups for better fixation in bent glass areas. Specially equipped with an adjustable handle this lifter offers the possibility to adjust the fitted screen precisely. Especially for the PU extruded Volkswagen screens with very narrow upper gaps between glass edge and pinchweld this suction cup is perfectly usable for finding and adjusting the right screen position.

Note: Made in Germany

Profi Line Glass repair system with vacuum pump

A competitively priced, professional quality stone chip repair kit.

This *Profi Line* glass repair kit contains a powerful 220 V UV lamp, an improved bridge and three UV repair resins in different viscosities, each 20 ml.

Dimensions (LxWxH): 445 mm x 320 mm x 160 mm

Components:

- 1 x vacuum pump with gauge,
- 1 x adapter for vacuum pump,
- 1 x DUOBOND® Fixing injection bridge,
- 1 x injectors, 5 pieces,
- 1 x inspection mirror,
- 1 x UV repair resin, 20 ml,
- 1 x UV repair resin, extra-low viscosity, 20 ml,
- 1 x impact-filler, 20 ml,
- 1 x UV glass primer, 10 ml,
- 1 x resin sealing films, 25 pieces,
- 1 x UV hand lamp 8 W, 230 V,
- 1 x penlight, 141 mm,
- 1 x mini lift pin with plastic handle,
- 1 x replacement blades for glass scraper, 40 mm, 100 pieces in blister

Roger's Glass repair system with vacuum pump

This competitively-priced professional kit allows for the fast and high-quality repair of stone chips and includes a comprehensive set of high quality tools.

This kit can be used to repair any kind of stone chip on laminated glass of cars, trucks and buses and will produce transparent and durable repairs. Kit is suitable for use for both mobile repairs and in workshop situations.

Consumable supplies can also be ordered separately.

Dimensions (LxWxH): 460 mm x 370 mm x 160 mm

Components:

- 1 x vacuum pump with suction cup and adapter,
- 1 x fixing injection bridge,
- 1 x vacuum gel, 60 ml,
- 1 x inspection mirror,
- 1 x marking tool,
- 1 x drill hole puncher,
- 1 x drilling machine, 12 V,
- 1 x polishing disc,
- 1 x injector,
- 1 x washing primer,
- 1 x washing cylinder,
- 1 x UV lamp 6 W, 12 V,
- 1 x UV replacement tube 6 W,
- 1 x penlight, 141 mm,
- 2 x special drill, 6 pieces,
- 1 x stone chip simulator,
- 1 x bus/vertical adapter,
- 1 x blades, 5 pieces,
- 5 x UV repair resin, 3 pieces,
- 1 x sealing foil, 5 pieces,
- 1 x UV protective foil, 3 pieces,
- 1 x polishing compound, 80 ml,
- 1 x connecting cable (for battery clamps) with heater,
- 1 x finishing resin, 2 ml
- 1 x special adhesive tape,
- 1 x operating instructions,
- 1 x CD-ROM

This high-viscosity impact filler that cures by UV light is used for repairing larger surface damage from stone impact. After filling and curing of the low-viscosity UV repair resin the impact filler is placed over the damaged area with the sealing foil and is left for curing. This professional product guarantees a smooth and homogeneous repair.

Characteristic: viscous

Article number	Content	Item/unit
10460102	1	piece

PMA/TOOLS UV glass primer, 10 ml

A transparent adhesion-promoting agent is necessary if high-quality stone impact repairs are to be carried out using high and low viscosity UV resin. The glass resin primer is applied to the hardened UV resin surface and acts as a support function for the low viscosity impact filler. After 2-3 minutes flash-off time the impact filler can be applied. For small surface damage this primer is also used to clean the damaged area. It prevents any potential loosening of the cured resin from the damaged area.

Stone chip template

This stone chip template is designed to show whether any stone damage within the driver's view of the windscreen can be repaired.

Simple to use, the template is placed on the windscreen in front of the driver's side and any damage can be checked by your staff and shown to the customer to see if the glass can be repaired or has to be replaced. Further markings on the template show the distance to the A-pillar and the maximum length of the stone chip.

ADHESIVES AND PRIMER

PT 200 PLUS FC kit incl. PT 750 PLUS, 12 pcs. in box

PT 200 PLUS FC is a 1-component polyurethane sealant for bonding vehicle windscreens. It cures quickly in ambient temperatures by reaction with air humidity.

PT 200 PLUS FC has the following product and processing characteristics:

- can be processed cold
- short drive-away times according to US Standard FMVSS 212/208
- good stability and easy to process
- short thread tear
- primer-free with PT 750 PLUS
- fulfils or exceeds OEM standards

This product complies with automobile manufacturer specifications and approval (OEM supplier quality).

Components:

- 1 x PT 200 PLUS FC cartridge
- 1 x PT 750 PLUS glass activator 30 ml
- 1 x gold wire 2 m
- 1 x cartridge nozzle

Note: The stated drive-away times are based on ambient temperatures from 5 °C to 35 °C.

Drive away time without/with passenger air bag (minutes): 60/120

- suitable for all vehicles
- high modulus

This product complies with automobile manufacturer specifications and approval (OEM supplier quality).

Components:

- 1 x PT 290 PLUS HM/LC cartridge
- 1 x PT 750 PLUS activator 30 ml
- 1 x gold wire 2 m
- 1 x cartridge nozzle

Note: The stated drive-away times are based on ambient temperatures from 5 °C to 35 °C.
Drive away time without/with passenger air bag (minutes): 60/60

PT 290 PLUS HM/LC kit incl. PT All-in-1 PLUS, 12 pcs. in box

PT 290 PLUS HM/LC is a high modulus 1-component polyurethane sealant for bonding vehicle windscreens. It cures very quickly in ambient temperatures by reaction with air humidity.

PT 290 PLUS HM/LC has the following product and processing characteristics:

- fast-curing - can be processed cold
- short drive-away times according to US Standard FMVSS 212/208
- excellent stability and easy to process
- short thread tear
- used on vehicles with integrated antenna
- reduces contact corrosion on aluminium car body
- very short flash-off period with PT All-in-1 PLUS
- fulfils or exceeds OEM standards
- suitable for all vehicles
- high modulus

This product complies with automobile manufacturer specifications and approval (OEM supplier quality).

Components:

- 1 x PT 290 PLUS HM/LC cartridge
- 1 x PT All-in-1 PLUS 30 ml
- 1 x gold wire 2 m
- 1 x cartridge nozzle

Note: The stated drive-away times are based on ambient temperatures from 5 °C to 35 °C.
Drive away time without/with passenger air bag (minutes): 60/60

PT 750 PLUS activator, 250 ml

Transparent solvent-based glass and PU activator for black primer-free gluing of vehicle wind-screens. PT 750 PLUS is a cleaner, transparent primer and activator combined in one product. PT 750 PLUS is applied on the remaining beading to activate the old polyurethane. PT 750 PLUS is also used for cleaning and improving adhesion with all surfaces such as glass silk print, paint-work, remaining beading and windscreens pre-laminated at works.

- cleaner and coupling agent on screen printing in one work process
- activator for the PU remaining bead on the bodywork
- activator for the PU pre-laminated screens
- short flash-off period

PT All-in-1 PLUS, 250 ml

PT All-in-1 PLUS is a combined glass primer/activator with a short flash-off period. It can be used when replacing windscreens, back- and sidelights on both the silk print area and on the old sea-lant (remaining bead).

It can also be applied to the bodywork and on freshly painted surfaces. PT All-in-1 PLUS protects the polyurethane against UV radiation and ensures a high-quality bonding.

This all-inclusive one-step product reduces the need for additional primers, activators or cleaners, thus reducing the time needed to prepare the glass for installation and the possible extra costs for additional products. Can be applied on all known plastic screens (Lexan, Macrolon, etc.).

PT 800 PLUS glass pre-treatment cleaner, 1000 ml

PT 800 PLUS is a liquid pre-treatment cleaner which ideally removes impurities as well as silicone residues from windscreens and vehicle mouldings. It can also be used for cleaning tools and surfaces. As PT 800 PLUS does not contain any chlorinated hydrocarbons and it only requires a short flash-off period, it does not affect the paint. Moreover, it does not block the curing of adhesives and sealants.

Capacity: 1000 ml

CORDLESS CARTRIDGE GUNS

Milwaukee® Battery-powered gun C18 PCG 18 V, 310-400 ml, 3 pcs.

18 Volt battery-powered cartridge gun for bags up to 400 ml and cartridges

- 4-pole compact design motor with cooling, offering high drive force of 4500 Nm
- Digital Power Management (DPM) - overload shut-off for long service life of battery, motor and gear box
- electronic drive force speed regulation either through 6-step hand wheel or switch
- powerful 18 Volt/2.0Ah operation with load indicator
- for use with high viscous materials
- automatic non-drip function
- 2-component ergonomic anti-slip handle
- transparent cylinder allows the user to always view the current PU level

Components:

- 1 x cartridge gun,
- 1 x 18 Volt/1.5 Ah Red Li-Ion battery,
- 1 x recharger

Pressure: 4500 Nm

Characteristics: With automatic non-drip function and overload shut-off

Voltage: 18 Volt

Delivery: transportation bag

POWERHAND® Battery-powered gun 10,8 V Li-Ion, 400 ml, 4 pcs. in the carry-case

The POWERHAND® cartridge gun is based on a plunger release mechanism. With this version high modulus 1K polyurethane adhesives can be processed easily. It can be used for working with 310 ml cartridges, as well as 400 ml and 600 ml bags.

Components:

- 1 x battery-powered cartridge gun,
- 1 x 10.8 Volt DC 2.0 Ah Li-Ion battery,
- 1 x charger,
- 1 x bag plunger cap

Pressure: 4400 N

Characteristic: no after running of sealant as a result of electronic pressure release

CORDLESS CARTRIDGE GUNS

POWERHAND® Battery-powered gun 4,8 V, 310-400 ml, 4 pcs. in the carry-case

The POWERHAND® cartridge gun is based on a plunger release mechanism. The high ejection pressures of 3000 N, as well as the power of 4,8 V, allow ease of working with high modulus polyurethane adhesives. Even HM products that are processed cold are easy to work. This POWERHAND® battery-powered gun can be used for 310 ml cartridges, as well as 400 ml bags.

Components:

- 1 x battery-powered cartridge gun,
- 1 x 4.8 Volt battery,
- 1 x charger,
- 1 x bag plunger cap

Pressure: 3000 N

Characteristic: no after running of sealant as a result of electronic pressure release

Voltage: 4,8 Volt

Feed rate: high 372 mm/min

The POWERHAND® cartridge gun is based on a plunger release mechanism and can produce high ejection pressures, through the 7,2 Volt power unit. It is very suitable for dispensing high modulus polyurethane adhesives. This POWERHAND® cordless gun can be used for 600 ml bags.

Components:

- 1 x cartridge gun,
- 1 x piston for bags,
- 1 x spanner tool,
- 1 x charger,
- 1 x 7,2 Volt Ni-Cd battery

Pressure: 3800 N

Characteristic: no after running of sealant as a result of electronic pressure release

Voltage: 7,2 Volt

Feed rate: high 306 mm/min, low 78 mm/min

PT 310 PLUS sensor activator, 200 ml

The PT 310 PLUS activator is used as a fluid bonding agent in sensor adhesion. After the old sensor has been fitted with the new adhesive pads, the activator is sprayed onto the pads and the sensor area of the windscreen that is free of all screen-printing. Now the optical unit is moved on the windscreen until there are no longer any air bubbles between the unit and the windscreen.

State-of-the-art
sensor and camera Smart Repair!

SensorTack® cleaning and contact spray facilitates the installation of sensor and camera units and is ideal as a pre-cleaner for sensor replacement.

It is applied in conjunction with the original PMA/TOOLS SensorTack® Ready+ pads.

Art. No 13360100

Rain/Light sensor without electronic device Type H1

Optical unit without electronic device.

Remember to use SensorTack® 1 or SensorTack® Ready+ silicone pads for re-use of this device.

SENSORTACK®

SensorTack® 1

SensorTack® 1 Gel

SensorTack® 1 gel saves the purchase of new gel sensors. This 2-component silicone gel allows cost-effective reuse of round-type rain and light sensors. Quick and easy to apply, the old sensor can be reattached to the windscreen in just a few minutes. In combination with our SensorTack® heating box SensorTack® 1 gel can also be applied on mobile applications at ambient temperatures down to -15 °C.

Characteristics: Cost-saving (no need to buy expensive new sensor), easy handling and application, very short curing time

Components: 2-component sensor gel, 2-component syringe, slider, mixer jet

Capacity: 2 x 2 ml

Colour: transparent

Material: 2-component silicone gel

Mixer jets for double syringe, 10 pieces

Smaller sensor units require only 1/3 of the total quantity of the SensorTack® syringe. Therefore additional mixing nozzles (pkts. 10 pcs) are available so that the SensorTack® syringe may be re-sealed for later use.

SENSORTACK®

SensorTack® 2

SensorTack® 2 Gel

For the repair of square-type gel sensors for VW Passat B6, Tiguan etc. (see below).

Gel pads can easily be rebuilt with SensorTack® 2 gel and our unique refill mould.

SensorTack® 2 gel saves the purchase of new gel sensors. This 2-component silicone gel allows cost-effective reuse of square-type rain and light sensors. Quick and easy to apply, the old sensor can be reattached to the windscreen in just a few minutes. In combination with our SensorTack® heating box SensorTack® 2 gel can also be applied on mobile applications at temperatures down to - 15°C.

Components: 2-component sensor gel, 2-component syringe, plunger, mixer nozzle

Capacity: 2 x 3 ml

Colour: translucent (milky)

Material: 2-component silicone gel

SensorTack® 2 Refill mould Type 3/13

For the repair of square-type gel sensors with the dimensions 62 x 40 mm (see vehicle listing below).
Gel pads can easily be rebuilt with SensorTack® 2 gel and this unique refill mould.

Components:

- 1 x SensorTack® 2 refill mould Type 3/13
- 1 x pin for light eye cover
- Parts per set: 2 pieces

SensorTack® Release spray, 400 ml

The SensorTack® release spray helps to separate the new pad created by SensorTack® 2 gel, from the refill mould.

Storage advice: Keep dry and frost-free. Do not expose to extreme cold or temperatures exceeding 50 °C. Keep out of reach of children. Shelf-life: 12 months min.

Note: Application: Shake well before use. Evenly spray the inner side of the refill mould from 10 - 20 cm distance to produce a thin film. Leave to dry approx. 30 sec before applying mould to sensor.

Characteristic: quick-drying

SensorTack® Ready+ Camera pad Audi A4/Q7 silicone

Original SensorTack® Ready+ camera pad with the following characteristics:

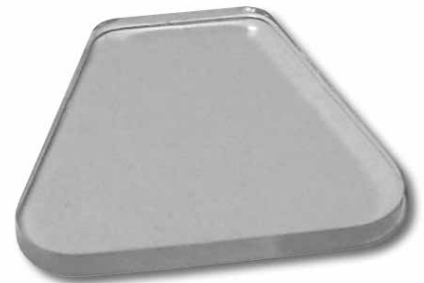

- non-adhesive
- elastic
- highly transparent
- similar light refraction index as glass
- saves having to purchase expensive OE pads

The application in combination with the SensorTack® Cleaning and contact spray (Art. no. 13360100) ensures a bubble-free installation and easy handling. trapezium shape

Length: 46 mm

Width: 41 mm

SensorTack® Ready+ Sensor pad Type 1 silicone

The only true alternative to the OE spare part! Previously available sensor replacement pads have up until now been acrylic, which is difficult to handle. SensorTack® Ready+ however is made of silicone.

Advantages of SensorTack® Ready+:

- pads made of silicone
- non-adhesive
- resistant against dust, grease, finger prints etc.
- highly elastic
- highly transparent
- similar light refraction index as glass
- saves having to purchase expensive new sensor unit
- easy handling and application

The application in combination with the SensorTack® Cleaning and contact spray (Art. no. 13360100) ensures a bubble-free installation and easy handling.

Diameter: 27 mm

SensorTack® Ready+ Sensor pad Type 12-3 silicone

The only true alternative to the OE spare part! Previously available sensor replacement pads have up until now been acrylic, which is difficult to handle. SensorTack® Ready+ however is made of silicone, like the original.

Advantages of SensorTack® Ready+:

- pads made of silicone
- non-adhesive
- resistant against dust, grease, finger prints etc.
- highly elastic
- highly transparent
- similar light refraction index as glass
- saves having to purchase expensive new sensor unit
- easy handling and application

The application in combination with the SensorTack® Cleaning and contact spray (Art. no. 13360100) ensures a bubble-free installation and easy handling.

Poster SensorTack®

Sensor repair – At a glance!

More and more sensors are being incorporated into today's vehicle models to enhance driving comfort and safety. Often however, when these sensors are removed from the vehicle during a windscreen replacement, the silicone layer becomes damaged.

A sensor repair is possible with products from our SensorTack® range and this handy SensorTack® poster shows all the vehicle sensor repair applications.

Poster SensorTack® Ready+

SensorTack® Ready+ silicone pads are used for re-attaching rain/light sensors to the windscreen. Just remove the old sensor pad and replace it by a new SensorTack® Ready+ pad.

This poster lists all vehicles for which SensorTack® Ready+ pads are available. Finding the right SensorTack® Ready+ pad for the requested vehicle model now only takes a few seconds.

SensorTack® Ready* Sensor pad Type 21 silicone

Eliminates the need to purchase expensive new original sensor units. This SensorTack® Ready* sensor pad is made from special silicone just like the original.

When compared to the OEM pad and SensorTack® 2 it provides several advantages:

- bubble-free installation of the sensor to the glass
- pad is already finished - no need to use a mould with SensorTack® 2 for the refill procedure
- resistant against dust, grease, finger prints etc.
- highly elastic
- translucent (milky) just like the original
- eliminates the purchase of expensive new gel sensors
- temperature-independent sensor repair
- easy handling and application

SensorTack® Ready+ Sensor pad Type H1 silicone

Up until now round type rain/light sensors had to be repaired with SensorTack® 1, but now our 'ready-to-go' silicone pad SensorTack® Ready+ can be used.

This saves time and money and leads to the following advantages:

- pads made of silicone
- non-adhesive
- resistant against dust, grease, finger prints etc.
- highly elastic
- highly transparent
- similar light refraction index as glass
- saves having to purchase expensive new sensor unit
- easy handling and application

The application in combination with the SensorTack® Cleaning and contact spray (Art. no. 13360100) ensures a bubble-free installation and easy handling.

SensorTack® Ready+ Sensor pad Type H2 silicone

Up until now round type rain/light sensors had to be repaired with SensorTack® 1, but now our 'ready-to-go' silicone pad SensorTack® Ready+ can be used.

This saves time and money and leads to the following advantages:

- pads made of silicone
- non-adhesive
- resistant against dust, grease, finger prints etc.
- highly elastic
- highly transparent
- similar light refraction index as glass
- saves having to purchase expensive new sensor unit
- easy handling and application

The application in combination with the SensorTack® Cleaning and contact spray (Art. no. 13360100) ensures a bubble-free installation and easy handling.

Diameter: 44 mm

SensorTack® Ready+ Plus

SensorTack® Ready+ Plus Combination kit Type 3/4/13

Most square-type sensors can now be repaired using either SensorTack® 2 gel or SensorTack® Ready+ pads. However, for those square-type sensors incorporating raised features on the face of the optical unit, a repair was not previously possible if the pad was damaged and the complete unit had to be replaced.

Now, with SensorTack® Ready+ Plus, we have developed a repair solution: you can replace the damaged pads by using SensorTack® Ready+ Plus combination kit, which comprises both an already shaped silicone pad and a supply of SensorTack® 1 gel. Simply remove the damaged silicone pad from the sensor optical surface and remove the existing silicone from the face of the sensor. Clean the surface thoroughly and apply the SensorTack® 1 gel to the face of the sensor unit allowing the gel to cover all the raised features. Allow to cure. Then carefully place the new SensorTack® Ready+ Pad in position.

It takes only a few minutes to re-apply the sensor to the windscreen!

Length: 49 mm
Width: 37 mm

SensorTack® Case Profi Line

Standard set for square-type rain/light sensor repair. You will find everything you need for sensor repair: SensorTack® 1 for the repair round sensors, SensorTack® 2 for the repair square-type sensors and includes SensorTack® Ready+ pads. The SensorTack® heating box (included) contains a lever bar to open square-type sensors. Also included, a selection of SensorTack® refill moulds.

Dimensions (LxWxH): 440 mm x 380 mm x 150 mm

Components:

- 5 x SensorTack® 1 Gel,
- 3 x SensorTack® 2 Gel,
- 3 x SensorTack® Ready+ Sensor pad Type 1 silicone,
- 2 x SensorTack® Ready+ Sensor pad Type 2-1 silicone,
- 3 x silicone grease 10 ml,
- 3 x applicator,
- 1 x SensorTack® 2 Refill mould Type 7/8/10,
- 1 x SensorTack® 2 Refill mould Type 3/13,
- 1 x SensorTack® 2 Refill mould Type 4,
- 1 x PMA/TOOLS Lever bar for rain/light sensors, 205 mm,
- 1 x SensorTack® Heating box, blue,
- 1 x adapter cable Euro-plug for SensorTack® Heating box 110/220 V,
- 1 x mixer jets for double syringe, 10 pieces,
- 1 x poster SensorTack® Ready+

SensorTack® Cleaning and contact spray, 250 ml

Ideal pre-cleaner and assembly support for the installation of sensor and camera units. Cleans the camera lens as well as the sensor and glass surface. Moistens the glass-facing side of all SensorTack® Ready+ pads and facilitates the installation. Dissolves fast without leaving any streaks or residues. Both the composition and the application of SensorTack® cleaning and contact spray meets the existing OE manufacturer specifications.

Notice: PMA/TOOLS AG will not accept any responsibility if SensorTack® cleaning and contact spray is used in conjunction with products other than the original SensorTack® Ready+ pads.

SensorTack® Heating box, blue

At low temperatures, any two-component silicone product will require additional time to cure. This can create problems for the automotive glass fitter when working at low garage temperatures or in mobile situations during periods of cold weather. To accelerate the reaction time of SensorTack® gel we have developed the SensorTack® heating box.

Characteristics: Built-in level indicator enables the sensor to be positioned completely level, no impairment of the sensor function through the ingress of dirt or dust during curing process, can be used at temperatures below freezing point, consumes only 4 Watt at 12 Volt

Note: 12 Volt cigar lighter cable included.

Power consumption: 4 Watt

Voltage (output): 12 Volt

GENERAL TERMS AND CONDITIONS PMA/TOOLS AG

valid since 01.04.2014

1. General information

- 1.1 The contractual partner for all orders is the PMA/TOOLS AG, Siemensring 42 in 47877 Willich (hereinafter referred to as „PMA“, „us“ or „we“). The following general terms and conditions (GTCs) shall be applicable to all company transactions with PMA in the sense of the German Civil Code (BGB). They shall also apply to all future transactions with our customers, even if they are not expressly agreed again. Contradicting or deviating conditions of the customer shall not be recognised unless we expressly recognise this in writing. Our general terms and conditions shall also be applicable if we perform the delivery to the customer without reservation although being aware of contradictory or deviating conditions of the customer.
- 1.2 Collateral agreements, in particular assurances as well as subsequent amendments to the contract shall require the written form.
- 1.3 In the event that the customer only becomes aware of our GTCs upon the written order confirmation, then these GTCs shall become an integral part of the contract with the unqualified acceptance of the goods unless he has expressly objected to the applicability of our GTCs.

2. Offers and documentation

- 2.1 All offers on the part of PMA are principally non-binding. The offers on our website do not represent offers in legal terms, but merely an invitation to submit an offer.
- 2.2 We shall be entitled to accept an offer made by the customer within three weeks. The customer shall be bound by his offer for a period of three weeks unless otherwise provided for in the offer.
- 2.3 An agreement shall not become effective until receipt of our order confirmation or the delivery of the goods.
- 2.4 The observance of our obligation to deliver shall require the timely and complete obligations to cooperate on the part of the customer as well as the timely and complete delivery on the part of our supplier. In this regard, we shall immediately notify the customer in respect of goods, which are undeliverable following the placing of the order. In this case, we shall be entitled to cancel the agreement within two weeks following the order confirmation and reimburse any return service already provided without this leading to further compensation claims against us.
- 2.5 We shall retain the title to property rights and copyrights to images, drawings, calculations and other documents (e.g. catalogues, posters, etc.). The customer shall require our express written consent before their reproduction, publication, distribution, modification, passing on to third-parties or other use. This shall particularly apply to such written documents designated as „confidential“.
- 2.6 We shall assume no liability whatsoever for misunderstandings occurring through non-written communication. Declarations made verbally or by telephone shall require our written confirmation as a matter of principle.

3. Prices and terms of payment

- 3.1 For contracts with an agreed delivery period exceeding four months, we shall reserve the right to change the prices as appropriate in the event that cost reductions or cost increases have taken place following the conclusion of contract.
- 3.2 All our prices are net prices plus VAT in the statutory amount.
- 3.3 Unless a different term of payment has been agreed, invoices shall be due within 14 days without deduction. The agreement of a discount shall require a special written agreement.
- 3.4 For company customers, the default interest shall be a minimum of 8 %-points above the base rate. The right to verification for higher default damages shall remain reserved.
- 3.5 PMA shall be entitled at any time to claim an advance payment (§ 321 BGB) – particularly with new customers, i.e., only provide delivery against cash on delivery or prepayment at the discretion of PMA.
- 3.6 PMA shall be entitled to claim settlement of all outstanding invoices (without reminder) and demand payment in cash at any time – particularly if we become aware of a risk to our payment claim.
- 3.7 Any set-off of our claims with non-recognised or claims on the part of the customer that have not been legally determined shall be excluded. This shall also apply to a right of retention relating to said counter-claims unless these claims are based on the same contractual relationship.
- 3.8 Invoice complaints shall be notified immediately (§ 121 BGB). Complaints received later than 14 days following receipt of the invoice shall no longer be accepted.

4. Scope and period of delivery

- 4.1 The scope of delivery shall be determined by the order confirmation or the agreements made between PMA and customers. The right to changes in design or form, intended to improve the technology or the requirements of lawmakers, shall remain reserved during the delivery period, insofar as the consignment remains suitable for the contractual use without restrictions and the changes are reasonable for the customer to accept.
- 4.2 Information provided in our catalogues, in our online shops or other information material shall not represent warranties for a particular product feature.
- 4.3 A delivery period or delivery date specified by us does not represent a transaction at a fixed date. A transaction at a fixed date shall require a particular written agreement.
- 4.4 We shall only enter into default if we have been set a suitable period of time for subsequent performance (a minimum of 5 working days) and said time has lapsed ineffectively.
- 4.5 A temporary prevention of acceptance shall also constitute default of acceptance. In the event of default of acceptance or the culpable violation of other obligations to cooperate, we shall be entitled to demand compensation for losses incurred, including any additional expenditures. Further claims or rights shall remain reserved.
- 4.6 Unless otherwise specified in the order confirmation, our prices do not include ex-works handling charges (extra). The despatching shall invariably ensue at the customer's request and risk. PMA shall be entitled to select the despatching company. The amount of the despatch charges shall be calculated according to our despatch charges file, which may be viewed in our online shop (after logging-in) or can be sent to the customer on request.
- 4.7 PMA shall be entitled to provide partial performance and partial delivery at any time. § 324 Section 5, Clause 1 BGB shall be excluded.
- 4.8 In those cases, in which sale to destination (§ 447 BGB) is not present, the risk of incidental loss or incidental deterioration of the purchase item shall pass to the customer not later than the date, at which he has fallen into default of taking delivery.
- 4.9 Insofar as the customer so wishes and assumes the costs thereof, we will cover delivery with transport insurance.

5. Force majeure

Force majeure, strike, non-culpable inability on the part of PMA or one of our suppliers as well as unfavourable weather conditions shall extend the delivery period by the period of the disruption, plus a suitable initial period of not less than 5 days. Alternatively, we shall be entitled to withdraw from the contract in full or in part as a result of the not yet fulfilled part of delivery or performance.

6. Warranty

- 6.1 The inspection and reproof obligations in accordance with § 377 German Commercial Code (HGB) shall apply to all companies.
- 6.2 Insofar as the purchase item is defective, we shall be entitled, at our discretion, to provide subsequent performance either by rectifying the defect or delivering a new item free of defects. In the event of subsequent performance, we shall only bear the necessary costs up to the value of the purchase price.
- 6.3 In the event of subsequent performance, the customer shall only have complied with his contractual obligation of mitigation, if he has given us the opportunity to provide him with a suitable replacement until rectification of the defect(s)/delivery of a new item free of defects.

- 6.4 Should the subsequent performance fail, then the customer shall, at his discretion, be entitled to demand withdrawal or a reduction in payment.
- 6.5 The period of limitation for claims based on defects shall be 12 months, beginning with the transfer of risk. No warranty shall be assumed for parts subject to wear, particularly batteries, unless the defect is due to intent or gross negligence by us or by one of our representatives or vicarious agents. The caveat emptor for wear parts shall apply neither to injury to life, limb or health nor to an obligation to provide compensation due to other statutory provisions.
- 6.6 In the event of withdrawal from the agreement, the obligation to provide compensation on the part of PMA for wear parts shall be cancelled.
- 6.7 Notification of defects and withdrawal shall require the written form.

7. Liability and compensation

- 7.1 Our liability for compensation claims shall be limited to our own intent and gross negligence as well as to intent and gross negligence on the part of our representatives or vicarious agents. Unless we are accused of intent, our compensation liability shall be limited to the amount of the sum insured of our business liability insurance.
- 7.2 Insofar as we culpably violate an essential contractual obligation, we shall be liable in accordance with statutory provisions. Again in this respect, however, our compensation liability shall be limited to the amount of the sum insured of our business liability insurance. In respect to the violation of minor contractual obligations, our liability for slight negligence shall be excluded.
- 7.3 Our liability resulting from culpable injury to life, limb or health shall remain unaffected by said limitation of liability. The same shall apply to mandatory liability in accordance with other provisions, particularly the German Product Liability Act.
- 7.4 The limitation of liability shall also apply, insofar as the customer demands unnecessary expenses in lieu of performance instead of reimbursement of expenses.
- 7.5 The use of our products shall only be permitted in those countries, in which there exist industrial property rights for PMA products. The customer shall bear the sole risk and the sole responsibility for export to those countries, in which no PMA property rights exist. If because of this, property rights of third-parties are violated and – as a result – a claim is made against PMA, the customer shall undertake to indemnify us from all costs.
- 7.6 A further liability for compensation other than that envisaged in this Section shall be excluded – without regard to the legal nature of the claim asserted. This particularly applies to compensation claims arising from fault in conclusion of contract (culpa in contrahendo), other breaches of obligation or on account of tortious claims for compensation for material damage in accordance with § 823 BGB.

8. Title retention

- 8.1 The consignment shall remain the property of PMA until the settlement of all claims owed to us resulting from the business connection.
- 8.2 The customer is permitted to process or rework („processing“) the consignment. The processing shall ensue for PMA; if, however, the value of the consignment belonging to PMA is lower than the value of the consignment not belonging to PMA and/or the processing, then PMA shall acquire joint ownership of the new goods in the ratio of the value (gross invoice value) of the consignment processed to the value of the remaining processed goods and/or the processing at the time of processing. Insofar as PMA does not acquire any ownership of the new goods under the above paragraph, PMA and the customer shall agree that the customer grants PMA joint ownership of the new goods in the ratio of the value (gross invoice value) of the consignment belonging to PMA to the value of the remaining processed goods at the time of processing. The above sentence shall apply accordingly in the case of the inseparably mixed (or combination of the) consignment with goods not belonging to PMA. Insofar as PMA acquires ownership or joint ownership according to Item 8 in this agreement, the customer shall keep the goods safe for PMA free of charge.
- 8.3 In the case that the customer should sell on the goods or the new goods, the customer shall herewith as sign his claim arising from the resale against the subsequent purchaser to PMA as security, without any further special declarations being required. The assignment shall apply to include any current account balances. The assignment shall, however, only apply to the amount corresponding to the price of the consignment invoiced by PMA. The share of the receivable assigned to PMA shall be satisfied with priority.
- 8.4 Until notice of revocation, the customer shall be authorised to collect receivables assigned to PMA in accordance with Item 8 in this agreement. The customer shall immediately pass on payments made on the assigned receivables up to the amount of the secured claim to PMA. If there is a compelling legitimate interest, particularly in relation to default in payment, the suspension of payments, the opening of insolvency proceedings, protest of a bill or cheque or justified indication of over-indebtedness or impending solvency on the part of the customer, PMA shall be entitled to revoke the customer's authority to collect. Furthermore, after having set a reasonable deadline, and observing an appropriate period, PMA shall be entitled to disclose the assignment by way of security, exploit the assigned outstanding balance claims and require the customer to disclose any assignments by way of security to his sub-buyers.
- 8.5 When a legitimate interest is substantiated, the customer shall provide PMA with the information necessary to assert its rights against the sub-buyers and hand over the documents required.
- 8.6 For the duration of retention of title, the customer is prohibited to pledge the retained goods or assign them by way of security. The customer shall immediately notify PMA in the event of distraints, confiscation or other disposition or intervention on the part of third-parties. The resale of the consignment or of the new goods by the customer shall only be permissible in accordance with correct business procedures and allowed only on condition that payment of the counter-value of the consignment ensues to the customer. Furthermore, the customer shall agree with his purchaser, that the purchaser will acquire ownership only with this payment.
- 8.7 Insofar as the realisable value of all the security rights, to which PMA is entitled, exceeds the sum of all secured claims by more than 10 %, PMA shall – at the customer's request – release a corresponding part of the security rights. It shall be assumed that the requirements of the above sentence are satisfied when the estimated value of the securities due to PMA reaches or exceeds 150 % of the value of the secured claims. PMA shall have the right to choose which various security entitlements are to be released.
- 8.8 In the event that the customer violates any of its obligations – particularly in relation to default of payment, PMA shall be entitled to demand surrender of the consignment or the new goods – even without setting a time limit, and/or withdraw from the contract – against a time limit, if necessary; the customer shall undertake said surrender. A demand for the surrender of the consignment/new goods shall not constitute a withdrawal declaration on the part of PMA, unless this is expressly declared.

9. Data protection

PMA shall save and make use of personal customer data in accordance with the applicable data protection laws. The customer shall be entitled to revoke the use of his personal data for his own marketing purposes at any time.

10. Final provisions

- 10.1 Insofar as the customer is a Kaufmann (with a business registered in the German Commercial Register), the place of jurisdiction shall be our place of business. We shall also be entitled, however, to sue the customer at the court of his place of residence.
- 10.2 The laws of the Federal Republic of Germany shall be applicable, to the exclusion of the application of the UN Sales Law.
- 10.3 Unless otherwise specified in the order confirmation, the place of performance shall be our place of business.
